

ENTREPRENEUR

Inspired Leadership™ Coaching Program

Being an entrepreneur is like riding a roller coaster. Developing the leadership capability to manage internal stress, build confidence, and self-accountability are key to grow a thriving business. Entrepreneurs that engage a coach greatly increase their odds of success.

With one-on-one coaching, the entrepreneur is paired with a certified leadership coach with the goal of unleashing their leadership potential. Coaching is the catalyst to maximize business results.

All of Power HR's coaching packages are based on neuroscience to change behaviour and mindset based on how the brain works.

Entrepreneur Coaching Package includes:

- **Ten (10) one-hour individual teleconference coaching calls with a Certified Coach**
- **Coachee Participant Manual** with coaching worksheets and resources
- Access to **online coaching resource dashboard** to share documents, track goal progress and share output and resources from coaching calls
- **360 degree assessment** completed by the entrepreneur's direct reports, professional advisors, peers, and a self-assessment to identify leadership development areas
- **CliftonStrengths 34 Assessment** identifies your top 5 strengths out of 34 potential strengths
- **The Attentional & Interpersonal Style (TAIS) Assessment** identifies what conditions undermine performance based on your management style and help entrepreneurs operate more successfully under stressful conditions
- **Entrepreneur Inspired Leadership™ Certification**

Entrepreneurs Will Develop their Ability to:

- Build trust with others
- Create strong relationships with team members and clients
- Increase employee engagement
- Communicate with candor and confidence
- Increase self awareness through reflection and mindfulness
- Develop a growth mindset
- Inspire performance to deliver business results
- Build their coaching capability to become more inspired leaders
